LETTER OF SUPPORT & COLLABORATION

Aloha Director of Mālamalama,

Hawaii Farmers Union United is established to be a voice for farmers, ranchers and fishermen throughout the Hawai'ian Islands and to empower our members to earn a prosperous living through regenerative stewardship of our lands, waters and communities, we are in support of helping the students and graduates (single mothers, college-age youth and veteran women) of the Sustainability Training Program and collaborating with Mālamalama.

Specifically, the HFUU Haleakalā Chapters' support will include:

- Education and Training, in respect to farming, sustainability and stewardship;
- Assisted entry into the community of farmers united;
- Farming jobs opportunities.

We look forward to collaborating with you to restore sustainable living practices and more independent and empowered youth and families in our community, especially to those interested in pursuing farming as a career.

Sincerely,

A handwritten signature in black ink, appearing to read "John Dobovan", is written on a light-colored rectangular background.

John Dobovan
President
Hawaii Farmers Union United (HFUU) / Haleakalā Chapter
