RE: Support and Collaboration
with Mālamalama Farm and Center/Mālamalama Sustainability Center

To Whom It May Concern:

This letter is to confirm that we are in support of Mālamalama's programs and projects including the ones involving our fire-affected population. We understand their work involves economic development through entrepreneurship training, food security, community development, building/rebuilding community including disaster preparedness and recovery, transitional housing, housing solutions, and training in all those areas.

We also understand their commitment to working towards a sustainable Maui and we support their efforts in all those endeavors.

We will collaborate by providing support as needed to reach fire survivors, as well to collaborate on upcoming projects.

Please feel free to contact me with any questions.

A handwritten signature in black ink that reads "Kanamau Balinbin". The signature is written in a cursive style and is positioned above a horizontal line.
